1.

I have been to many cities in Japan but I haven't been to Sapporo so I would like to go there. Sapporo is in Hokkaido in the northernmost part of Japan and it is very cold in the winter. I know that the food there is very good, for example, ramen noodles, salmon and dairy products like milk and cheese. There are three things I would like to do there. First, if I can go there, I would like to go skiing in the mountains. Second, I would also like to go to the Snow Festival if I can. Finally, I would like to see the Sapporo Clock Tower because it is famous. I hope I can go there one day.

2.

There are many good memories from my school days but my best one is from elementary school. I was on the soccer team and we won all our games. After the last game we took a photo with the teacher because they were leaving our school. I still have the photo and look at it sometimes. The people on the team are all doing different things now. Some of them are working and some of them are at universities. We are still friends and contact each other from time to time.
